ABOUT ME

Front-End Engineer specialized in React and TypeScript, focused on scalable UI architectures and reusable components. Product-driven mindset with experience crafting intuitive, high-impact user experiences..

EXPERIENCE

Senior Software Engineer <i>OpenGov</i>	<i>United States - Remote</i> <i>2023-Present</i>
<ul style="list-style-type: none">• Led the front-end architecture for a major workflow initiative and built the Plan Review experience from scratch, used by government agencies to process permits and licenses at scale.• Built a React + GraphQL payments framework, delivering an extensible, provider-agnostic payment component supporting Stripe, Elavon, and PaymentTech.• Built complex, data-heavy UIs (multi-step workflows, wizards, bulk actions) with advanced data fetching and pagination, reducing hundreds of manual actions per record.• Acted as a frontend architecture reference, collaborating with product, design, and backend teams.	
Senior Frontend Engineer <i>Spot Meetings</i>	<i>United States - Remote</i> <i>2021-2023</i>
<ul style="list-style-type: none">• Joined the founding engineering team, designing and building reusable front-end components in React and TypeScript. Developed an enterprise communication system that enabled real-time collaboration and streamlined meeting workflows. Took ownership of technical decisions, estimations, and roadmap planning.	
Frontend Engineer <i>ATB Financial - Axxiome</i>	<i>Canada - Remote</i> <i>2020-2021</i>
<ul style="list-style-type: none">• Implementation of the Electronic Funds Transfer module to the Business Banking Web application using ReactJS with Redux. Used storybooks and performed unit testing for each component developed using Jest.	
Senior Business Analyst <i>Superdigital - Axxiome</i>	<i>Argentina</i> <i>2019-2020</i>
<ul style="list-style-type: none">• Joined the founding team of a major project that consisted of building a Fintech from scratch. Responsible for the design and definition of new business processes end-to-end.	
SAP Java Developer <i>CenterState Bank - Axxiome</i>	<i>United States</i> <i>2016-2019</i>
<ul style="list-style-type: none">• Utilized SAP HANA to create real-time sentiment analysis dashboards, providing valuable insights for informed decision-making.	
Technical Consultant <i>Deloitte</i>	<i>Argentina</i> <i>2013-2016</i>
<ul style="list-style-type: none">• Utilized SAP HANA to craft real-time sentiment analysis dashboards across different topics, enabling informed decision-making. Integrated data collection from Facebook and Twitter via a Node.js middleware, funneling data into SAP HANA.
